CONTROL DATA

Geodetic Datum: North American 1927
Reference Station: Sugarloaf B, 1909
Latitude: 24° 36' 11.591" (356.6 meters) (Adjusted)
Longitude: 81° 33' 47.708" (1342.1 meters)

Datum Plane: Mean High Water

LEGEND

△ Triangulation Stations
○ Recoverable Stations of less than third order accuracy
○ (d) Described Recoverable Stations

The light line around the mangrove defines the outer limits of vegetation visible above mean high water. The mean high water line (intersection of the plane of mean high water with the ground) is shown only on fast land and is represented by a heavy solid line.

Approximate low water line

Shoal lines

This map, without contours, is a reproduction of the original drawing compiled from air photographs taken in January, 1935 and supplemented by other surveys to April 9, 1938.
